

Bill Nye the Abortion Guy Pushes Population Control at Planned Parenthood Event

National Laretta Brown May 10, 2018 | 9:04AM Washington, DC

Bill Nye “the Science Guy,” once the beloved figure of the popular PBS children’s show, fundraised and gave a talk for Planned Parenthood of South Texas Tuesday in which he renewed calls for population control in response to climate change. He also praised the nation’s largest abortion provider for efforts to raise the quality of life for women and emphasized that this was one way to address climate change, saying this would lead to “fewer kids.”
