

## “Drag Queens” marching with Mayor Turner and reading to Pre-K Children in Library!

*Rev. Dave Welch, Executive Director, HAPC*

Houston Mayor Turner is quietly following the steps of his predecessor and radical LGBTQ activist Annise Parker by personally promoting the agenda to tear down historic Judeo-Christian based sexual morality, marriage and male-female distinctions, per his enthusiastic participation in the 2018 Houston LGBTQ Pride Parade. \*

Unfortunately, **Houston Police Chief Art Aceveda**, brought to Houston from Austin and a California product, is now doing the same via decorating an *HPD cruiser in rainbow* as he did in Austin, followed by uniformed HPD officers carrying a banner proclaiming, “*Houston’s Finest – Out and Proud*”. While HPD officers and vehicles have been in previous parades, the sheer number was more than prior years.

The parade was overflowing with the gender-confused also, with a plethora of “Drag Queen” men flowed from beginning to end:

The glorification of sexual deviancy is of course the central theme of the LGBTQ movement and we **now have the unbelievable inclusion of Drag Queens in Houston Public Libraries for Pre-K and Grade School age children's reading programs** (we will address that issue in a forthcoming Action Alert for our pastors and friends). Truly tragic are the hundreds of ignorant, misled and irresponsible parents who lined up their young children to watch, or even as shown below to be in, the sexually-charged parade as well as those who took even toddlers to the Drag Queen as he led them to "shake your butt".

The defeat of Parker's LGBTQ "Equal Rights Ordinance" was a major victory, however only a temporary victory if the pastors and our people in Houston don't decide that it is time for us to choose leaders who will honor God and lead in virtue, decency, character and integrity...starting with the Mayor.

*\* - All photos are from the 2018 Houston Pride Parade in June, except the Drag Queen in the Houston Public Library which is from the July 15 KHOU news story.*
